

GLM2024

Technical Specifications

Dimensions: 258mm × 114mm × 75mm

Rated voltage: 412VDC

Protection Level: IPXXB

Box material: Flame retardant plastic

Weight: 2.5kg

flame retardant rating: UL94-V0

Product Features

- Integrates negative main relay, main fuse, heating relay, and heating fuse, all mounted inside the battery pack.
- A quick-change connector is reserved on the product surface and mounted on the outer wall of the battery pack, enabling fast battery replacement.
- The high-voltage sections of the product are protected with a flip-cover design, meeting the IPXXB protection rating.
